

Mobile Feed Grinder Operator

Job Description:

Feed Grinder Operator for Feed Processors will perform on-site grinding services for dairy customers, sometimes at the customer site in various locations or at our main yard in Oakdale. Class A license is required for occasionally driving the grinder to customer locations. Grinding services will be performed using a mobile tub grinder and front-end wheel loader. Grinder Operator should be relatively mechanically inclined to be able to troubleshoot and perform minor field repairs and maintenance. Applicant shall be proficient in safe equipment operation and have previous experience operating a front-end wheel loader (or equivalent).

Equipment Maintenance:

- Blowing out filters/radiator
- Greasing equipment
- Fueling
- Checking fluid levels
- Minor repairs
- Washing equipment
- All work pertaining to safe operation of equipment

This is an outdoor job performed in all weather conditions. This job involves working around heavy and loud equipment. This job involves lifting heavy steel parts. Employees can expect to work in outdoor conditions that are often dusty and dirty. Extended work schedules (10-12hrs/day) during some periods.

Requirements:

- Strong work ethic
- Self-starter
- Quick learner
- At least 18 years old
- Speak & write English
- Available to work Mon-Sat
- Class A license Preferred

Strong applicants will have experience operating a front-end wheel loader and previous experience as a heavy equipment operator. Excellent applicants will have previous horizontal, wood, feed, or tub grinder operation experience and a valid Class A License.
